INTERCONTINENTAL BROADCASTING CORPORATION NOTES TO THE FINANCIAL STATEMENTS

(All amounts in Philippine Peso, unless otherwise stated)

1. GENERAL INFORMATION

The financial statements of the **INTERCONTINENTAL BROADCASTING CORPORATION (IBC-13)** were authorized for issue on May 30, 2025 as shown in the Statement of Management's Responsibility for Financial Statements signed by Jose C. Policarpio, Jr., President and Chief Executive Officer (CEO), Corazon C. Reboroso, General Manager, and Noel M. Malaya, Chairman of the Board.

The IBC-13 was originally incorporated as the Continental Broadcasting Corporation (CBC) under Securities and Exchange Commission Registration No. 4118 dated May 11, 1970. The Articles of Incorporation was amended on September 30, 1974, renaming CBC to IBC-13, with the same set of stockholders and subscribers to its capital stock. The IBC-13 studios are located at Broadcast City, Capitol Hills, Diliman, Quezon City, while its transmitter is situated at #125 St. Peter Street Nuestra Señora de la Paz Subdivision, Barangay, Sta. Cruz, Antipolo City.

On March 1, 1986, Juan Ponce Enrile, then Minister of National Defense, ordered the sequestration of Broadcast City television and radio stations, which included the IBC-13, Radio Philippines Network and Banahaw Broadcasting Corporation, under Ministry Order No. A-003 based on the request of the then Presidential Commission on Good Government (PCGG) Chairman, Jovito Salonga. Thereafter, then President of the Republic of the Philippines, Corazon C. Aquino, issued Executive Order (EO) No. 11 dated April 8, 1986, creating a Board of Administrators to manage and operate the business and affairs of the said stations and have custody of their funds and assets subject to the supervision and control of the PCGG. By virtue of a compromise agreement with the PCGG dated November 3, 1990, the Network was surrendered/ceded by Mr. Roberto S. Benedicto to the Republic of the Philippines.

In July 2000, Congress approved IBC-13's 25-year franchise to operate and maintain radio and television broadcasting stations in the country. Under Section 2 of EO No. 576 dated November 7, 2006, the Network and other government communication agencies were placed under the supervision and control of the Director-General, Philippine Information Agency under the Office of the President.

DWAN 1206 AM has rich history dating back to 1973 when it was established as DWWA under the Banahaw Broadcasting Corporation. In 1978, it moved to the 1206 kHz frequency following the adoption of the 9 kHz spacing on AM radio stations in the Philippines. In 1984, it changed its call letters to DWAN, which stands for D' WAN (pronounced "the one"). The station has undergone several name changes over the years, including D' Wan, IBC Broadkast Patrol, Islands Galing Broadkaster, and MMDA Traffic Radio. After a period of dormancy, the station was relaunched in June 2024 with a new branding and programming lineup. Under the leadership of the IBC President and CEO Jose "Jimmie" C. Policarpio, Jr. and Station Manager Marc Logan, DWAN 1206 AM has introduced a dynamic programming lineup that includes news, talk shows, music and podcasts.

The IBC-13 presently operates under the control and supervision of the Presidential Communication Office in accordance with Section 4 of EO No. 4 dated July 30, 2010.

The primary purposes of the IBC-13 are to carry on the business as operators and/or proprietors of instruments and media of mass communication such as radio, television and/or telecommunication stations on a commercial and/or sustaining basis in any part of the Philippines, and to deal in the manufacture and distribution of radio, television and other electronic components and/or parts thereof.

2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared in compliance with the International Public Sector Accounting Standards (IPSASs) prescribed for adoption by the Commission on Audit (COA) in COA Resolution No. 2014-003 dated January 24, 2014.

These are IBC-13's first financial statements prepared in accordance with IPSASs and IPSAS 33 *First-time Adoption of Accrual Basis* has been applied. The date of adoption of IPSASs is January 1, 2021. The accounting policies have been consistently applied throughout the year presented.

The financial statements have been prepared on the basis of historical cost, unless stated otherwise. The Statement of Cash Flows is prepared using the direct method.

The financial statements are presented in Philippine Peso, IBC-13's functional and presentation currency and amounts are rounded off to the nearest peso, unless otherwise stated.

The preparation of financial statements in compliance with the adopted IPSASs with corresponding Philippine Application Guidance (PAG) requires the use of certain accounting estimates. It also requires the entity to exercise judgment in applying the entity's accounting policies.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of Accounting

IBC 13's financial statements are prepared on an accrual basis in accordance with IPSASs.

3.2 Financial Instruments

a. Financial assets

i. Initial recognition and measurement

Financial assets within the scope of IPSAS 29-Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, held-to-maturity investments, loans and receivables or available-for-sale

financial assets, as appropriate. The IBC-13 determines the classification of its financial assets at initial recognition.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date, i.e., the date that the IBC-13 commits to purchase or sell the asset.

IBC-13's financial assets include cash and cash equivalents, loans and other receivables.

ii. Subsequent measurement

The subsequent measurement of financial assets depends on their classification.

1. Financial assets at fair value through surplus or deficit

Financial assets at fair value through surplus or deficit include financial assets held for trading and financial assets designated upon initial recognition at fair value through surplus or deficit. Financial assets are classified as held for trading if these assets are acquired for the purpose of selling or repurchasing in the near term.

2. Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. Losses arising from impairment are recognized in the surplus or deficit.

iii. Derecognition

The IBC-13 derecognizes a financial asset or, where applicable, a part of a financial asset or part of the IBC-13 of similar financial assets when:

- 1. The contractual rights to the cash flows from the financial asset expired or waived; and
- 2. The IBC-13 has transferred its contractual rights to receive the cash flows of the financial assets, or retains the contractual rights to receive the cash flows of the financial assets but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement that meets the conditions set forth in IPSAS 29-Financial Instruments: Recognition and Measurement; and either the entity has:

- Transferred substantially all the risks and rewards of ownership of the financial asset; or
- Neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset, but has transferred the control of the asset.

iv. Impairment of financial assets

The IBC-13 assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Evidence of impairment may include the following indicators:

- 1. The debtors or a group of debtors are experiencing significant financial difficulty;
- 2. Default or delinquency in interest or principal payments;
- 3. The probability that debtors will enter bankruptcy or other financial reorganization; and
- 4. Observable data indicates a measurable decrease in estimated future cash flows (e.g. changes in arrears or economic conditions that correlate with defaults).

v. Financial assets carried at amortized cost

For financial assets carried at amortized cost, the IBC-13 first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the IBC-13 determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses these assets for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in surplus or deficit. Receivables together with the associated allowance are written-off when there is no realistic prospect of future recovery and all collateral has been realized or transferred to the IBC-13. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. The request for write-off of accounts is based on the guidelines prescribed in COA Circular No. 2023-008 dated August 17, 2023. If a future write-off is later recovered, the recovery is credited to finance costs in surplus and deficit.

b. Financial liabilities

i. Initial recognition and measurement

Financial liabilities within the scope of IPSAS 29 are classified as financial liabilities at fair value through surplus or deficit, or loans and borrowings, as appropriate. The entity determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, plus directly attributable transaction costs.

IBC-13's financial liabilities include payables to supplier, employees and other contractors, inter-agency payables, and trust liabilities.

ii. Subsequent measurement

The measurement of financial liabilities depends on their classification.

1. Financial liabilities at fair value through surplus or deficit

Financial liabilities at fair value through surplus or deficit include financial liabilities held for trading and financial liabilities designated upon initial recognition at fair value through surplus or deficit.

Financial liabilities are classified as held for trading if these liabilities are acquired for the purpose of selling in the near term.

This category includes derivative financial instruments that are not designated as hedging instruments in hedge relationships as defined by IPSAS 29.

2. Loans and borrowings

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in surplus or deficit when the liabilities are derecognized as well through the effective interest method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

iii. Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in surplus or deficit.

c. Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

d. Fair value of financial instruments

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

3.3 Cash and Cash Equivalents

Cash and cash equivalents comprise Cash on hand and Cash in bank, Deposits on call and Highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value.

3.4 Inventories

Inventory is measured at cost upon initial recognition. To the extent that inventory are received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition.

After initial recognition, Inventory is measured at the lower of cost and net realizable value. However, to the extent that a class of inventory is distributed or deployed at no charge or for a nominal charge, that class of inventory is measured at the lower of cost and current replacement cost.

Net realizable value is the estimated selling price in the ordinary course of operations, less the estimated costs of completion and the estimated costs necessary to make the sale, exchange, or distribution.

Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the IBC-13.

3.5 Property, Plant and Equipment (PPE)

a. Recognition

An item is recognized as a PPE if it meets the characteristics and recognition criteria as a PPE.

The characteristics of the PPE are as follows:

- i. Tangible items;
- ii. Are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes; and
- iii. Are expected to be used during more than one reporting period.

An item of the PPE is recognized as an asset if:

- It is probable that future economic benefits or service potential associated with the item will flow to the entity;
- ii. The cost or fair value of the item can be measured reliably; and
- iii. The cost is at least P50,000.00.

b. Measurement at recognition

An item recognized as a PPE is measured at cost.

A PPE acquired through a non-exchange transaction is measured at its fair value as at the date of acquisition.

The cost of the PPE is the cash price equivalent or, for the PPE acquired through non-exchange transaction, its cost is its fair value as at recognition date.

Cost includes the following:

- i. Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates;
- ii. Expenditure that is directly attributable to the acquisition of the items; and
- iii. Initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired, or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

c. Measurement after recognition

After recognition, all the PPE are stated at cost less accumulated depreciation and impairment losses.

When significant parts of the PPE are required to be replaced at intervals, the IBC-13 recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major repair/replacement is done, its cost is recognized in the carrying amount of the PPE as a replacement if the recognition criteria are satisfied.

All other repair and maintenance costs are recognized as expense in surplus or deficit as incurred.

d. Depreciation

Each part of an item of the PPE with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each period is recognized as an expense unless it is included in the cost of another asset.

i. Initial recognition of depreciation

Depreciation of an asset begins when it is available for use such as when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

For simplicity and to avoid proportionate computation, the depreciation for one month is recognized if the PPE is available for use on or before the 15th day of the month. However, if the PPE is available for use after the 15th day of the month, depreciation is recognized in the succeeding month.

ii. Depreciation method

The straight-line method of depreciation is adopted unless another method is more appropriate for IBC-13's operation.

iii. Estimated useful life.

The IBC-13 uses the schedule on the estimated useful life of the PPE by classification prepared by COA in determining the specific estimated useful life for each asset based on its experience.

iv. Residual value

The IBC-13 uses a residual value equivalent to at least five percent of the cost of the PPE.

e. Impairment

An asset's carrying amount is written down to its recoverable amount, or recoverable service amount, if the asset's carrying amount is greater than its estimated recoverable amount or recoverable service amount.

f. Derecognition

The IBC-13 derecognizes items of the PPE and/or any significant part of an asset upon disposal or when no future economic benefits or service potential is expected from its continuing use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the surplus or deficit when the asset is derecognized.

3.6 Intangible Assets

a. Recognition and measurement

Intangible assets are recognized when the items are identifiable non-monetary assets without physical substance; it is probable that the expected future economic benefits or service potential that are attributable to the assets will flow to the entity; and the cost or fair value of the assets can be measured reliably.

Intangible assets acquired separately are initially recognized at cost.

If payments for an intangible asset are deferred beyond normal credit terms, its cost is the cash price equivalent. The difference between this amount and the total payments are recognized as interest expense over the period of credit unless it is capitalized in accordance with the capitalization treatment permitted in IPSAS 5-Borrowing Costs.

b. Subsequent expenditure on an acquired in-process research and development project

Subsequent expenditure on an in-process research or development project acquired separately and recognized as an intangible asset is:

- i. Recognized as an expense when incurred if it is research expenditure;
- Recognized as an expense when incurred if it is a development expenditure that does not satisfy the criteria for recognition as an intangible asset; and
- iii. Added to the carrying amount of the acquired in-process research or development project if it is a development expenditure that satisfies the recognition criteria for intangible assets.

c. Intangible assets acquired through non-exchange transactions

The cost of intangible assets acquired in a non-exchange transaction is the fair value at the date that these assets are acquired.

d. Internally generated intangible assets

Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred.

e. Recognition of an expense

Expenditure on an intangible item is recognized as expense when it is incurred unless it forms part of the cost of an intangible asset that meets the recognition criteria of an intangible asset.

f. Subsequent measurement

The useful life of the intangible assets is assessed as either finite or indefinite. Intangible assets with a finite life are amortized over their useful lives.

The straight-line method is adopted in the amortization of the expected pattern of consumption of the expected future economic benefits or service potential.

An intangible asset with indefinite useful life is not to be amortized.

Intangible assets with indefinite useful lives or intangible assets not yet available for use are assessed for impairment annually and whenever there is an indication that the assets may be impaired.

The amortization period and the amortization method, for an intangible asset with a finite useful life, are reviewed at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on an intangible asset with a finite life is recognized in surplus or deficit as the expense category that is consistent with the nature of the intangible asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the surplus or deficit when the asset is derecognized.

3.7 Changes in Accounting Policies and Estimates

The IBC-13 recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

The IBC-13 recognizes the effects of changes in accounting estimates prospectively through surplus or deficit.

The IBC-13 corrects material prior period errors retrospectively in the first set of financial statements authorized for issue after their discovery by:

- a. Restating the comparative amounts for prior period(s) presented in which the error occurred; or
- b. If the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and net assets/equity for the earliest prior period presented.

3.8 Foreign Currency Transactions

Transactions in foreign currencies are initially recognized by applying the spot exchange rate between the functional currency and the foreign currency at the transaction date.

At each reporting date:

- a. Foreign currency monetary items are translated using the closing rate;
- Nonmonetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
- c. Nonmonetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Exchange differences arising (a) on the settlement of monetary items, or (b) on translating monetary items at rates different from those at which these items are translated on initial recognition during the period or in previous financial statements, are recognized in surplus or deficit in the period in which these differences arise, except as those arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation.

3.9 Revenue from Non-exchange Transactions

a. Recognition and measurement of assets from non-exchange transactions

An inflow of resources from a non-exchange transaction, other than services in-kind, that meets the definition of an asset are recognized as an asset if the following criteria are met:

- It is probable that the future economic benefits or service potential associated with the asset will flow to the entity; and
- The fair value of the asset can be measured reliably.

An asset acquired through a non-exchange transaction is initially measured at its fair value as at the date of acquisition.

b. Recognition of revenue from non-exchange transactions

An inflow of resources from a non-exchange transaction recognized as an asset is recognized as revenue, except to the extent that a liability is also recognized in respect of the same inflow.

As the IBC-13 satisfies a present obligation recognized as a liability in respect of an inflow of resources from a non-exchange transaction recognized as an asset, it reduces the carrying amount of the liability recognized and recognizes an amount of revenue equal to that reduction.

c. Measurement of revenue from non-exchange transactions

Revenue from non-exchange transactions is measured at the amount of the increase in net assets recognized by the entity, unless a corresponding liability is recognized.

d. Measurement of liabilities on initial recognition from non-exchange transactions

The amount recognized as a liability in a non-exchange transaction is the best estimate of the amount required to settle the present obligation at the reporting date.

e. Gifts and donations

The IBC-13 recognizes assets and revenue from gifts and donations when it is probable that the future economic benefits or service potential will flow to the entity and the fair value of the assets can be measured reliably.

Goods in-kind are recognized as assets when the goods are received, or there is a binding arrangement to receive the goods. If goods in-kind are received without conditions attached, revenue is recognized immediately. If conditions are attached, a liability is recognized, which is reduced and revenue recognized as the conditions are satisfied.

On initial recognition, gifts and donations including goods in-kind are measured at fair value as at the date the assets are acquired, which are ascertained by reference to an active market, or by appraisal. An appraisal of the value of an asset is normally undertaken by a member of the valuation profession who holds a recognized and relevant professional qualification. For many assets, the fair values are ascertained by reference to quoted prices in an active and liquid market.

f. Transfers

The IBC-13 recognizes an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset, except those arising from services in-kind.

g. Services in-kind

Services in-kind are not recognized as asset and revenue considering the complexity of the determination of and recognition of asset and revenue and the eventual recognition of expenses.

h. Transfers from other government entities

Revenue from non-exchange transactions with other government entities and the related assets are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that

the economic benefits or service potential related to the asset will flow to the IBC-13 and can be measured reliably.

3.10 Revenue from Exchange Transactions

a. Measurement of revenue

Revenue is measured at the fair value of the consideration received or receivable.

b. Rendering of services

The IBC-13 recognizes revenue from Programs and Commercial Spots aired and billed to the clients. Sales revenue is taken up net of the 15 percent agency commission for Agency Accounts.

Production of in-house programs is stated at cost which includes supplies and materials, talents, fees and other overhead expenses. These production expenses are reflected under Maintenance and other operating expenses (MOOE).

c. Interest income

Interest income is accrued using the effective yield method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income each period.

d. Rental income

Rental income arising from operating leases on IBC-13's property is accounted for and is included in revenue.

3.11 Budget Information

The IBC-13 complied and submitted the Annual proposed Corporate Operating Budget (COB) for calendar year (CY) 2024 to the Department of Budget and Management (DBM) for review and evaluation.

A separate Statement of Comparison of Budget and Actual Amounts (SCBAA) is prepared since the budget and the financial statements are not prepared on comparable basis. The SCBAA is presented showing the original and final budget and the actual amounts on comparable basis to the budget. Explanatory comments are provided in the notes to the annual financial statements.

3.12 Related Parties

The IBC-13 regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the IBC-13, or vice versa. Members of key management are regarded as related parties.

3.13 Employee Benefits

The employees of the IBC-13 are members of the Social Security System (SSS), which provides life and retirement insurance coverage.

The IBC-13 recognizes the undiscounted amount of short-term employee benefits, like salaries, wages, bonuses, allowance, etc., as expense unless capitalized, and as a liability after deducting the amount paid. Non-accumulating compensated absences, like special leave privileges, were not recognized.

The IBC-13 recognizes expenses for accumulating compensated absences when these were paid (commuted or paid as terminal leave benefits). Unused entitlements that have accumulated at the reporting date were not recognized as expenses.

3.14 Measurement Uncertainty

The preparation of financial statements in conformity with IPSASs requires management to make estimates and assumptions that affect the reporting amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of the revenue and expenses during the period. Items requiring the use of significant estimates include the useful life of a capital asset, estimated employee benefits, impairment of assets, etc.

Estimates are based on the best information available at the time of preparation of the financial statements and are reviewed annually to reflect new information as it becomes available. Measurement uncertainty exists in these financial statements. Actual results could differ from these estimates.

4. RISK MANAGEMENT OBJECTIVES AND POLICIES

The IBC-13 is exposed to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Interest/Market risks
- Operational risk

This note presents information about IBC-13's exposure to each of the above risks, the IBC-13 objectives, policies and processes for measuring and managing risk, and its management of capital.

4.1 Risk Management Framework

The Management Committee of the IBC-13 has overall responsibility for the establishment and oversight of IBC-13's risk management framework. The committee has established IBC-13's assets, liabilities, credit and operational risk committees, which are responsible for developing and monitoring IBC-13's risk management policies in their specific areas.

All management committees have executive and non-executive members and report regularly to the President and CEO and to the Governing Board of the IBC-13 on their activities.

IBC-13's risk management policies are established to identify and analyse the risks faced by the IBC-13, to set appropriate risk limits and control, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes to market conditions, products and services offered. The IBC-13, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

IBC-13's audit committee is responsible for ensuring the company assets are properly safeguarded; shall assess the reliability and integrity of financial information, deter and investigate fraud, verify compliance with established policies, laws and regulations; and recommend improvements relating to efficiency, economy and effectiveness in the use of IBC-13's assets.

Generally, the maximum risk exposure of financial assets and financial liabilities is the carrying amount of the financial assets and financial liabilities as shown in the statements of financial position, as summarized below.

	Note	2024	2023
Financial assets			
Cash and cash equivalents	5	107,215,892	18,574,446
Receivables (net)	6	112,503,836	174,879,237
		219,719,728	193,453,683
Financial liabilities			
Financial liabilities	11	106,101,139	102,055,443
Inter-agency payables	12	8,408,825	1,902,877
		114,509,964	103,958,320

4.2 Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the IBC-13. The IBC-13 has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The IBC-13 defines counterparties as having similar characteristics if they are related entities.

On-going credit evaluation is performed on the financial condition of loans and other receivable and, where appropriate, obtaining additional collateral is requested to cover the loans.

Also, the IBC-13 manages its credit risk by depositing its cash with the Land Bank of the Philippines (LBP), an authorized government depository bank.

The carrying amount of financial assets recognized in the financial statements represents IBC-13's maximum exposure to credit risk.

a. Credit risk exposure

The table below shows the gross maximum exposure to credit risk of the IBC-13 as at the years ended December 31, 2024 and 2023, without considering the effects of credit risk mitigation techniques.

	Note	2024	2023
Financial assets			
Cash and cash equivalents	5	107,215,892	18,574,446
Receivables*	6	416,106,822	481,934,484
		523,322,714	500,508,930

^{*}Receivables at gross of allowance for impairment amounting to P303,602,986.00 and P307,055,247.00 both for the years ended December 31, 2024 and 2023, respectively. The Other receivables is net of allowance for impairment amounting to P5,028,102 both for the years ended December 31, 2024 and 2023, respectively.

b. Management of credit risk

The management of credit risk is covered by the Management Committee. The Finance Division of the agency is in charge of controlling, monitoring and collecting payments of all its receivables due from employees, tenants and clientele. Receivables from employees consist of overpayment of salaries due to leave without pay, excess usage of airtime charges over the set limit, personal calls, etc. and are collected through payroll deductions. Status of outstanding receivables is summarized quarterly in a schedule and is submitted together with the financial reports to COA. Should there be no payments received, the Finance Division follows up either through phone call or writes demand letters for collection until settled. Other concerns or issues, if any, are referred to the Office of the Government Corporate Counsel (OGCC) for appropriate action.

c. Aging analysis

An aging analysis of IBC-13's receivables as at the years ended December 31, 2024 and 2023 are as follows:

	2024	2023
Outstanding receivables:		
Current accounts	2,220,854	2,918,173
Past due accounts:		
1 – 30 days past due	10,944,313	530,392
31 – 60 days past due	9,708,850	76,607
61 – 90 days past due	51,517,799	1,273,571
over 90 days past due	33,476,433	159,378,600
	107,868,249	164,177,343

d. Impairment assessment

The IBC-13 recognizes impairment losses based on the results of the specific/individual and collective assessment of its credit exposures. Impairment has taken place when there is a presence of known difficulties in the servicing of cash flows by counterparties, infringement of the original terms of the contract has happened, or when there is an inability to pay principal or interest overdue beyond a certain threshold. These and the

other factors constitute observable events and/or data that meet the definition of an objective evidence of impairment.

The two methodologies applied by the IBC-13 in assessing and measuring impairment include: (1) specific/individual assessment; and (2) collective assessment. Under specific/individual assessment, the IBC-13 assesses each individual significant credit exposure for any objective evidence of impairment, and where such evidence exists, accordingly calculates the required impairment.

Among the items and factors considered by the IBC-13 when assessing and measuring specific impairment allowances are: (a) the timing of the expected cash flows; (b) the projected receipts or expected cash flows; (c) the going concern of the counterparty's business; (d) the ability of the counterparty to repay its obligations during financial crises; (e) the availability of other sources of financial support; and (f) the existing realizable value of collateral. The impairment allowances, if any, are evaluated as the need arises, in view of favorable or unfavorable developments.

With regard to the collective assessment of impairment, allowances are assessed collectively for losses on receivables that are not individually significant and for individually significant receivables when there is no apparent or objective evidence of individual impairment.

The collective assessment evaluates and estimates the impairment of the portfolio in its entirety even though there is no objective evidence of impairment on an individual assessment.

Impairment losses are estimated by taking into consideration the following deterministic information: (a) historical losses/write-offs; (b) losses which are likely to occur but has not yet occurred; and (c) the expected receipts and recoveries once impaired.

4.3 Liquidity Risk

Liquidity risk is the risk that the IBC-13 might encounter difficulty in meeting obligations from its financial liabilities.

a. Management of liquidity risk

IBC-13's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to IBC-13's reputation.

The IBC-13 maintains a portfolio of short-term liquid assets, largely made up of cash in banks to ensure that sufficient liquidity is maintained within the IBC-13 as a whole.

b. Exposure to liquidity risk

The liquidity risk is the adverse situation when the IBC-13 encounters difficulty in meeting unconditionally the settlement of its obligations at maturity. Prudent liquidity management requires that liquidity risks are identified, measured, monitored and controlled in a comprehensive and timely manner. Liquidity management is a major component of the

corporate-wide risk management system. Liquidity planning takes into consideration various possible changes in economic, market, political, regulatory and other external factors that may affect the liquidity position of the IBC-13.

The liquidity management policy of the IBC-13 is conservative in maintaining optimal liquid cash funds to ensure capability to adequately finance its mandated activities and other operational requirements at all times. IBC-13's funding requirements are generally met through any or a combination of financial modes allowed by law that would give the most advantageous results.

The table below summarizes the maturity profile of IBC-13's financial liabilities as at December 31, 2024.

As at December 31, 2024	Within 1 Year	1 - 5 Years	Over 5 Years	Total
Financial liabilities	42,807,267	63,293,872	-	106,101,139
Inter-agency payables	8,408,825	-	-	8,408,825
	51,216,092	63,293,872	-	114,509,964

4.4 Market Risks

Market risk is the risk that changes in the market prices, such as interest rate, equity prices, foreign exchange rates and credit spreads (not relating to changes in the obligor's issuer's credit standing) will affect IBC-13's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

Management of market risk

The management of interest rate risk against interest gap limits is supplemented by monitoring the sensitivity of IBC-13's financial assets and liabilities to various standard and non-standard interest rate scenarios.

4.5 Operational Risks

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with IBC-13's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. Operational risks arise from all of IBC-13's operations and are faced by all business entities.

IBC-13's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to IBC-13's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of control to address operational risk is assigned to Senior Management within each business unit. This responsibility is supported by the development of overall standards for the management of operational risk in the following areas:

- Requirement for appropriate segregation of duties, including the independent authorization of transaction;
- Requirement for the reconciliation and monitoring of transactions;
- Compliance with regulatory and other legal requirements:
- Documentation of controls and procedures;
- Requirements for the periodic assessment of operational risk faced, and the adequacy of control and procedures to address the risk identified;
- Requirements for the reporting of operational losses and proposed remedial action;
- Development of contingency plans;
- Training and professional development:
- Ethical and business standards; and
- Risk mitigation, including insurance where this is effective.

5. CASH AND CASH EQUIVALENTS

This account consists the following:

	2024	2023
Cash on hand	(4,910,619)	(5,064,102)
	(4,910,619)	(5,064,102)
Cash in bank	•	
Local currency	112,095,724	23,613,516
Foreign savings	29,793*	24,038
Local savings	994	994
	112,126,511	23,638,548
	107,215,892	18,574,446

^{*\$513.55 @} P58.0140 reported US dollar exchange rate as at 12/27/2024

5.1 Cash on Hand

As at December 31, 2024, the Cash on hand account consists of the following:

a. Cash collecting officer account – This represents collections received during the last working day of the year after banking hours. These collections are immediately deposited into IBC-13's peso account with the LBP – Local Water Utilities Administration (LWUA) Branch, LWUA Building, Metropolitan Waterworks and Sewerage System (MWSS) Complex, Katipunan Avenue, Balara, Quezon City on the first working day of the following year.

This account reflects an abnormal balance of P4.911 million, which arose from prior years' transactions. In CY 2022, IBC-13's bank accounts were garnished, compelling Management to conduct transactions using cash. Due to the volume of these cash transactions and the limitations in available manpower during that period, possible erroneous journal entries may have been made, resulting in the negative balance. Management is currently undertaking a comprehensive review of prior years' transactions to identify and correct any erroneous entries through appropriate adjusting journal entries. The reconciliation process is ongoing, and further action will be taken to ensure the accuracy and integrity of the Cash collecting officer account; and

b. Petty cash fund – This represents the petty cash maintained by IBC-13's Disbursing Officer for minor and immediate disbursements.

5.2 Cash in Bank

	2024	2023
Current account-local currency-LBP Current account-local currency-Bank of Commerce	103,101,311	14,619,103
(BOC)	8,994,413	8,994,413
Savings account-foreign currency-BOC Savings account-local currency-Development Bank	29,793	24,038
of the Philippines	994	994
	112,126,511	23,638,548

As at December 31, 2024, IBC-13's Cash in bank accounts include the following:

a. Current account – local currency – LBP:

The balance of P103.101 million is maintained in a non-interest-bearing depository account at LBP – LWUA Branch, LWUA Building, MWSS Complex, Katipunan Avenue, Balara, Quezon City intended for the disbursement of personnel services, MOOE, and financial expenses.

b. Current account – local currency – BOC:

A balance of P8.994 million is reflected in the books under this account. However, this is a non-existent account. Despite the efforts of Management—which included requesting a Certificate of No Cash Flow/Transaction from the Philippine Clearing House Corporation and sending bank confirmation letters to the BOC—no transactions or confirmation of existence could be verified for Current Account No. 064-00-000-353-9.

Upon seeking guidance from COA, the IBC-13 was advised to refer to IPSAS 29 – Financial Instruments: Recognition and Measurement, which provides that a financial asset shall be derecognized when, and only when:

- The contractual rights to the cash flows from the financial asset expire or are waived; or
- b. The asset is transferred in accordance with Paragraphs 20 and 21 of IPSAS 29 and qualifies for derecognition under Paragraph 22.

The IBC-13 is currently reconciling accounting records to determine whether erroneous entries may have contributed to the recorded balance in the Cash in bank – BOC account, as well as its potential connection to the Cash collecting officer account. The final assessment on whether the balance qualifies for derecognition will be made in consultation with COA.

c. Savings account – foreign currency – BOC:

The foreign currency savings account at the BOC is scheduled for closure. The dollar balance from this account will be used to open a new foreign currency account with the LBP, a government-accredited depository bank. This move supports IBC-13's potential future international transactions, particularly for communication and other operational requirements. Maintaining a dollar account with a government bank will provide flexibility in supplier selection and offer potential cost advantages when the exchange rate is favorable.

6. RECEIVABLES

This account consists the following:

	2024	2023
Accounts receivable, net	107,868,249	164,177,343
Other receivables, net	4,635,587	10,701,894
	112,503,836	174,879,237

6.1 Accounts Receivable

	2024	2023
Receivables	411,471,235	471,232,590
Allowance for impairment – accounts		
receivable	(303,602,986)	(307,055,247)
	107,868,249	164,177,343

In-house accounts pertain to transactions incurred after the Sales and Marketing operations were returned to the IBC-13 as a result of the compromise agreement in CY 1990 as discussed in Note 1, Paragraph 2, General Information. On the other hand, the Island accounts pertain to accounts accumulated with former marketing agent, Islands Broadcasting Corporation.

The reported P411.471 million gross balance of Accounts receivable – trade as at December 31, 2024, includes the dormant account balances totalling P311.225 million.

This account includes a receivable from the Department of Education amounting to P66.429 million, which remains unrecognized by the latter. A money claim has already been filed before the COA and is currently under review by the Commission Proper. On May 3, 2024, the IBC-13 Management, through the OGCC, filed a Motion for Early Resolution to expedite the process.

6.2 Other Receivables

	2024	2023
Due from officers and employees	419,722	323,373
Other receivables, net	4,215,865	10,378,521
	4,635,587	10,701,894

Due from officers and employees consists of receivable of the IBC-13 from cash advances and prior years; overpayment of the IBC-13 to the employees, cash shortages, loss of assets and other bills under accountability of employees of the IBC-13.

As regards to Other receivables – Radio Philippines Network (RPN) account, last November 7, 1997, the IBC-13 and the RPN entered into an Interim Agreement to govern their lessor-lessee relationship. As at January 14, 2014, the RPN has acknowledged the outstanding balance amounting to P43.600 million. However, there is an ongoing negotiation to reduce said amount by virtue of offsetting of equipment turned over to the IBC-13. As at December 31, 2024, Other receivables – RPN amounts to P2.260 million.

Aside from the trade receivable and other items due to be received or paid, the Other receivables represent sickness and maternity benefit claims of employees which were advanced by the IBC-13 to be reimbursed by the SSS. As at December 31, 2024, Other receivables – SSS amounts to P6.983 million with an Allowance for impairment amounting to P5.028 million.

7. INVENTORIES

This account is composed of the following:

	2024	2023
	Inventories carried at lower of cost and net realizable value	Inventories carried at lower of cost and net realizable value
Office Supplies/Inventory		
Carrying amount, January 1 Additions/Acquisitions during the year	283,472	283,472
Expensed during the year except write-down	-	-
Other adjustments	-	-
Carrying amount, December 31	283,472	283,472

Regular purchases of office and production supplies are recorded directly as expense.

Other supplies and materials inventory pertains to gift cheque/vouchers, received from prior years in exchange of non-cash transactions. Book balances are still subject for reconciliation.

8. INVESTMENT PROPERTY

Opening net book value, January 1, 2024	4,074,091
Accumulated depreciation	(2,802,070)
Depreciation for the year	(86,008)
Closing net book value, December 31, 2024	1,186,013

This account includes a property owned by the IBC-13 at La Perla Condominium, Legaspi Village, Makati City costing P4.074 million. Said property is being leased by the IBC-13 to generate other income. This account is previously recorded as a PPE and reclassified only in CY 2024.

9. PROPERTY, PLANT AND EQUIPMENT

This account consists the following:

	Land and land improvements	Building and other structures, leased assets, buildings and other structures	Communication equipment, furniture and fixtures, office equipment, motor vehicles and other PPE	Total

10. OTHER ASSETS

This comprises the following accounts:

	2024			2023		
	Current	Non-current	Total	Current	Non-current	Total
Advances	737,180	-	737,180	325,099	-	325,099
Other assets	65,494,418	10,660,507	76,154,925	56,454,523	6,960,881	63,415,404
	66,231,598	10,660,507	76,892,105	56,779,622	6,960,881	63,740,503

10.1 Advances

	2024	2023
Advances for operating expenses	2,384	2,384
Advances to special disbursing officer	734,796	322,715
	737,180	325,099

Advances of P737,180.00 represents advances granted to officers and employees for payment of operating expenses (advances for operating expenses); for special purpose/time-bound (advances to special disbursing officer); and for official travel (advances to officers and employees).

10.2 Other Assets

	2024			2023		
-	Current	Non-current	Total	Current	Non-current	Total
Input tax Withholding tax	47,564,701	-	47,564,701	38,420,722	-	38,420,722
source	17,929,717	-	17,929,717	18,033,801	-	18,033,801
Other investments	-	5,489,561	5,489,561	-	5,489,561	5,489,561
Other assets	-	5,170,946	5,170,946	-	1,471,320	1,471,320
	65,494,418	10,660,507	76,154,925	56,454,523	6,960,881	63,415,404

As a tax withholding agent of the Bureau of Internal Revenue (BIR), IBC-13's clients withhold a certain percentage of output tax due to them, upon payment of their accounts for actual airtime availments. The amounts withheld are supported with BIR Form No.

2307, Certificate of Creditable Tax Withheld at Source (CTW), issued by the withholding agents. The amounts of output tax withheld by clients are recorded in the books under the Output Tax Withheld account and deducted from the Output Tax on remittance to the BIR.

As at December 31, 2024, the IBC-13 recognized output tax corresponding to its airtime revenue, in accordance with the relevant provisions of the National Internal Revenue Code and applicable regulations issued by the BIR. The corresponding input tax from the purchase of goods and services from Value-Added Tax (VAT) registered suppliers is recorded upon recognition of the related expenses. Input VAT is applied against output VAT to determine the net output VAT payable to the BIR.

The IBC-13 also has a total of P17.930 million in CTW based on amounts withheld by customers or payors, as reflected in billing statements and payment advice. However, only P48,676 of this amount is supported by BIR Form No. 2307, which is required to substantiate and validate tax credit claims. The unsupported portion of the CTW relates to prior years' transactions. The IBC-13 is actively coordinating with the respective withholding agents to obtain the missing BIR Form No. 2307 certificates. In the absence of these documents, the affected CTW amounts may be disallowed for tax credit purposes, in accordance with applicable BIR rules and regulations.

11. FINANCIAL LIABILITIES

This is composed of the following:

	2024	2023
Accounts payable	63,293,872	59,748,478
Due to officers & employees	42,807,267	42,306,965
	106,101,139	102,055,443

This account represents unpaid obligations of the IBC-13 to various employees and also unpaid obligations for delivered goods and services rendered by employees and suppliers.

Due to officers and employees amounting to P42.807 million represent unpaid obligation to various and retired employees of the IBC-13.

12. INTER-AGENCY PAYABLES

This account consists the following:

	2024	2023
Due to National Government Agency	5,069,531	-
Due to SSS – salary loan	2,074,333	2,089,787
Due to BIR	1,136,985	(314,621)
Due to SSS	214,573	214,573
Due to Pag-IBIG multi-purpose loan	80,087	80,087
Due to PhilHealth	(85,999)	(85,764)
Due to Pag-IBIG	(80,685)	(81,185)
	8,408,825	1,902,877

The IBC-13 was able to update all obligations to the BIR thru application of Tax Amnesty for the delinquent year qualified for amnesty. Thus, other delinquent years were thru tax subsidy with pending application on abatement.

Despite diligent effort exerted to the account for the negative balance of Due to PhilHealth and Due to Pag-IBIG accounts for the year ended December 31, 2024, the Payroll Section cannot adjust or reconcile the said balance since the documents can no longer be retrieved since those were included in the documents damaged by typhoon Ondoy.

13. DEFERRED CREDITS/UNEARNED INCOME

This account represents Unearned income in CYs 2024 and 2023 and comprised the following:

	2024			2023		
	Current	Non-current	Total	Current	Non-current	Total
Deferred output tax Unearned	65,928,951	6,711,173	72,640,124	67,107,918	6,711,173	73,819,091
revenue/income	-	(1,886,368)	(1,886,368)	-	(1,886,368)	(1,886,368)
	65,928,951	4,824,805	70,753,756	67,107,918	4,824,805	71,932,723

Deferred output tax corresponds to the 12 percent tax on sales billed as part of the trade receivables. Upon billing, these are recorded as Deferred taxes and upon collection of the receivables, this account is debited and the proper liability account or the Output tax account is set up.

Unearned revenue income refers to an account in which the client/customers deposited in advance to avail the airtime in spots or blocktime.

14. PROVISIONS

IBC-13 Management entered into Memoranda of Agreement (MOAs) with IBC-13 Rank-and-File Employees Union and IBC-13 Supervisors' Directors Union, which were approved by the Board of Directors (BOD) in its regular meeting on August 21, 2008. It was stated in MOAs that the IBC-13 admits its obligations and liabilities to the members of the union which comprise 50 percent of its recorded liabilities as at December 31, 2014.

The amount of Gratuity payable for the year ended December 31, 2024 amounting to P316.320 million was intended to all incumbent and retired employees of the IBC-13 for their retirement pay.

15. OTHER PAYABLES

	2024				2023		
	Current	Non-current	Total	Current	Non-current	Total	
Loans payable	-	75,000,000	75,000,000	-	75,000,000	75,000,000

15.1 Loans Payable

In CY 2004, the IBC-13 entered into a MOA with Jemah Television, Inc. to enter into a coproduction arrangement for entertainment and special programs to be provided by Jemah for telecast in IBC-13's airtime slots, in accordance with mutually agreed booking schedule and airtime rate. Pursuant to MOA, Jemah advanced up to P20 million to the IBC-13 in CYs 2004 and 2005. Subsequently, disagreements with Jemah ensued over certain provisions of MOA, leading to its filing of complaint against the IBC-13 with Regional Trial Court, Makati on December 22, 2005.

On October 16, 2006, IBC-13 BOD gave the then President and Chief Executive Officer of the IBC-13 full authority to negotiate, enter and sign a Compromise Agreement with the duly authorized representative of Jemah Television, Inc. pivotal to the compromise settlement, the BOD agreed and approved the following conditions among others to wit:

- i. Secure business loan with the BOC in the amount of P75 million;
- ii. Upon release of such loan, the IBC-13 is to pay Jemah Television, Inc. the amount of P25 million representing payment of the P20 million loan principal/advances from the said co-production client with the corresponding interest of P5 million;
- iii. Pay Jemah Television, Inc. the amount of P20 million for business losses; and
- iv. Use the IBC-13's available airtime as collateral for the BOC loan.

The business loan of P75 million is covered by a Promissory Note (PN) value dated November 10, 2006 with a maturity date on November 10, 2011. As stated in the PN, interest rate is 15 percent for the one-year grace period from November 10, 2006 to November 7, 2007 up to November 3, 2011.

This is to be referred to the BOD for Board Resolution.

15.2 Interest Payable

The IBC-13 received and recorded Certificate of Abatement of Penalties Nos. 00372 and 00373 for years 2005 and 2008 amounting to P3.606 million per Journal Voucher No. 20012 dated July 31, 2024.

This also refers to the interest on the business loan of P75 million. As stated in the PN, the interest rate is 15 percent for one year grace period. As at December 2024, the interest amounted to P55.556 million and until now there is no negotiation for possible restructuring of the loan. This is to be referred to the Board of Directors for Board Resolution.

15.3 Other Payables

	2024	2023
Commission pay payable	1,201,129	1,441,129
Security/deposit payable	567,181	1,376,947
Other payables	(2,742)	(2,642)
	1,765,568	2,815,434

Commission pay payable amounting to P1.201 million refers to amount due to account executives and sales associates/agents based on billings to customers which are paid upon collection of related receivables. IBC-13's commission scheme policies effective September 1, 2011, all government accounts, whether handled by the advertising agency or not, shall be considered regular agency accounts instead of direct accounts. Thus, sales commissions to be paid shall be five percent which goes to the account executive and one percent which goes to the Sales Director.

Guaranty/Security deposits payable pertains to retention fees to guarantee performance by the contractor of the terms of contract.

15.4 Legal Claim Contingency

The Intercontinental Broadcasting Corporation Employees' Union (IBCEU) has initiated a labor action before the Department of Labor and Employment – National Conciliation and Mediation Board (DOLE-NCMB) concerning the implementation of the Collective Bargaining Agreement (CBA). Following the proceedings, the Voluntary Arbitrator rendered a decision in favor of the IBCEU, awarding a monetary claim amounting to P3.928 million along with attorney's fees of P392,884.00. Although the IBC-13 has filed an appeal, it is important to note that the appeal does not stay the execution of the judgment. Consequently, a Writ of Execution has been issued against the IBC-13. The IBC-13 is currently evaluating legal remedies and coordinating with counsel to determine the appropriate course of action while complying with applicable labor and legal regulations.

16. SERVICE AND BUSINESS INCOME

This line item consists the following:

	2024	2023
Business income		
Sales revenue	29,978,692	32,148,607
Other business income	10,000	78,343
	29,988,692	32,226,950

16.1 Business Income

16.1.1 Sales revenue

	2024	2023
Airtime	29,978,692	32,148,607
	29,978,692	32,148,607

16.1.2 Other business income

Other business income includes income from rent/lease of condominium and space rental.

17. PERSONNEL SERVICES

This account is composed of the following:

	2024	2023
Salaries and wages	54,428,496	52,801,510
Other compensation	27,411,439	23,616,655
Personnel benefit contributions	5,856,730	5,236,951
Other personnel benefits	49,334,616	69,915,297
	137,031,281	151,570,413

17.1 Salaries and Wages

	2024	2023
Salaries and wages-regular	50,549,756	51,978,542
Salaries and wages-casual/contractual	3,878,740	822,968
	54,428,496	52,801,510

17.2 Other Compensation

	2024	2023
Other bonuses and allowances	17,398,373	14,958,102
Overtime pay	4,605,936	3,994,113
Longevity pay	2,845,575	3,220,659
Representation allowance	1,381,500	1,349,843
Clothing uniform	1,090,055	-
Honoraria	90,000	93,938
	27,411,439	23,616,655

17.3 Personnel Benefit Contributions

	2024	2023
Retirement and life insurance premiums	4,222,730	4,113,943
PhilHealth contributions	1,274,100	950,708
Pag-IBIG contributions	359,900	172,300
	5,856,730	5,236,951

17.4 Other Personnel Benefits

	2024	2023
Retirement gratuity	31,569,553	51,191,473
Medical, dental and hospitalization	1,761,586	2,403,339
Other personnel benefits	16,003,477	16,320,485
	49,334,616	69,915,297

17.5 Employees Future Benefits

The permanent employees of the IBC-13 contribute to the SSS. The SSS administers the plan, including payment of pension benefits to employees to whom the act applies. Social insurance (life and retirement) benefits are mandatory defined contribution plans fixed at nine percent of the basic salaries of regular government employees. Total contributions to SSS amounted to P6,039,111.00 broken down as follows: employees' share – P1,925,168.00 and employer's share – P4,113,943.00.

The Reserve for contingency account pertains to Retirement Gratuity of IBC-13 employees. Details are shown below.

Status of Employment	2024	2023
Supervisors/Directors	43,999,429	46,879,637
Rank and file	42,567,436	48,595,832
Officers	16,440,096	20,955,208
	103,006,961	116,430,677

The account revealed that the contingent Liability-Reserve for contingency account amounting to P103,006,961.00 represents additional 30 days retirement gratuity benefits to IBC-13 officers and employees in case of its privatization. The additional 30 days retirement benefits were based on the following computation.

RATE PER DAY X 30 DAYS IN CASE OF X NO. OF YEARS IN SERVICE

18. MAINTENANCE AND OTHER OPERATING EXPENSES

This line item consists the following:

	0004	2000
	2024	2023
Professional services	21,515,987	7,435,255
Communication expenses	14,831,044	15,223,145

There were no related party transactions during the year other than the remuneration received by the key management personnel.

25. KEY MANAGEMENT PERSONNEL

The key management personnel of the IBC-13 are the Chairperson, the Members of the Governing Board, and the Principal Officers. The Governing Body consists of members appointed by the President of the Philippines. The Principal Officers consist of the President and CEO, the General Manager, and the Department Managers.

25.1 Key Management Personnel Compensation

The aggregate remuneration of members of the governing body and the number of members determined on a full-time equivalent basis receiving remuneration within this category, are:

	Total Remuneration
Salaries and wages	8,369,006
Other personnel benefits	3,636,178
Directors and committee members fee	1,132,000
	13,137,184

26. ACCUMULATED SURPLUS/(DEFICIT)

In accordance with the Philippine Accounting Standard No. 8, Accounting Policies, Changes in Accounting Estimates and Errors, the Accumulated Surplus/(Deficit) are as follows:

	Amount	
Accumulated surplus, January 1, 2023	s, January 1, 2023 (1,190,734,864)	
Add (deduct) adjustments	9,204,049	
Prior period errors	155,440,486	
Accumulated surplus, December 31, 2023	(1,026,090,329)	
Surplus for CY 2024	542,588,642	
Other adjustments	(38,811,864)	
Accumulated surplus, December 31, 2024	(522,313,551)	

27. REVALUATION SURPLUS

There is a remaining balance of P422.186 million after adjusting its amount following the cost-model valuation of Land and Building under the PPE account.

28. BUDGET INFORMATION IN FINANCIAL STATEMENTS

The original budget reflected in the Statement of Comparison of Budget and Actual Amounts for December 31, 2024 is the proposed COB for the year 2025 that was submitted to the DBM for review/evaluation while the final budget is the amount approved by the DBM. The proposed/original COB is prepared considering: (1) IBC-13's various programs, projects and activities in the pursuance of its mandate; (2) the projected revenues and other sources of income to finance and support these programs; (3) the actual expenses for previous years; and (4) the effects of inflation. The IBC-13 was granted subsidy from the National Government amounting to P741,035,000.00.

29. SUPPLEMENTARY INFORMATION REQUIRED BY THE BIR UNDER REVENUE REGULATION NO. 15-2010

29.1 Revenue Regulation (RR) No. 15-2010

The IBC-13 is compliant to the requirements under RR No. 15-2010 dated November 25, 2010, pertinent to taxes, duties and license fees paid or accrued during the taxable year thru submission of documentary requirements based on the prescribed process.

Due to BIR as at December 31, 2024	Amount
Due to BIR – output tax	65,928,951
Due to BIR – withholding tax on VAT	960,098
Due to BIR – expanded withholding tax	297,415
Due to BIR – withholding tax on compensation	(120,529)
•	67,065,935

In compliance with the requirements set forth by RR No. 15-2010, hereunder are the information on taxes, duties and license fees paid during the taxable year.

a. The agency is a VAT registered company with VAT output tax declaration of P65.928 million for the year based on the amount reflected in Business and Service Income.

b. Other Taxes and Licenses

National (BIR annual registration fee)	500
Total	500

c. The amount of withholding taxes paid/accrued for the year amounted to:

Withheld VAT	3,134,889
Tax on compensation and benefits	4,016,860
Expanded withholding tax	1,904,788
Total	9,056,537

30. COMPLIANCE WITH SSS LAW

The IBC-13 complied with Section 14.1 of Republic Act No. 8291 which provides that it shall remit directly to the SSS the employees' and government agency's contributions within the first 10 days of the calendar month following the month to which the contributions apply. Below is the summary of remittances of employees' premium contributions and employer's share for CY 2024:

	Withheld	Remitted
Government share	4,222,730	4,167,550
Life and retirement premiums, employees share	1,975,320	1,949,580
Total	6,198,050	6,117,130
