IBC-13 as an Active Arm of the government and the PCO

The IBC News Department is an active instrument of the PCO in disseminating information about government programs and is at the forefront of combating fake news and disinformation.

As part of PCO Integrated State Media (ISM), we remain active in promoting Presidential news coverage, including projects and accomplishments of other government agencies/departments. Had a partnership with the other government communication team of PCO for a wider audience by exchanging stories and materials via PCO Integrated News and Balitang Pambansa.

IBC also played a big role in the Presidential Communications Office (PCO) Communications Initiatives relative to the Marcos Jr. Legacy Projects. It has concluded after an intensive three-month drive beginning in December 2024.

On the part of IBC, the Network's contribution involved the conceptualization, production, and publication/airing of eighty (80) print materials/articles, materials for broadcast on radio and television, materials for digital messaging, and materials for public exposure at government facilities.

PBBM LEGACY PROJECT
FOOD SECURITY AND RESILIENCY

These materials were focused on the activities and accomplishments of the Department of Agriculture (DA), Department of Agrarian Reform (DAR), Department of Science and Technology (DOST), Department of Trade and Industry (DTI), and the Climate Change Commission (CCC).

As a vital part of the Administration’s communications arsenal, operating under the aegis of the PCO, IBC has long been fulfilling its responsibility to disseminate information to the Filipino public on the activities, policies, programs, and projects of the National Government.

A significant aspect of this mandate is to make the government more accessible to the people, while bringing their particular concerns to the government's attention.

The PCO’s Marcos Legacy Projects Communications Initiative provided IBC with an opportunity to prove to all stakeholders its capability to perform and deliver to a higher standard and tighter deadlines, with enhanced logistical support from its Mother Agency.

With the successful execution of its assignments for this project, IBC has drawn the positive attention of other government agencies, who have indicated their desire to tap the Network for their future communication needs.

IBC and Congress TV also had active participation in the recently concluded midterm election, “Hatol ng Bayan”.

State media join forces for historic election broadcast

In an unprecedented move toward unified public service, all state-run media agencies joined forces under President Ferdinand R. Marcos Jr.'s directive to broadcast on Monday the "Hatol ng Bayan 2025," the most expansive and integrated election coverage in Philippine history.

Improving our News Coverage, expanding audience reach both in traditional media and Digital

Pista ng Itim na Nazareno - for the first time, IBC News was able to do a remote newscast for the Feast of Jesus Nazarene. With the acquisition of Live-u and Starlink, the IBC News Team could give blow-by-blow updates. As early as January 4, we built the live platform assigned for IBC.

We were able to produce several special coverages, such as the Duterte trial, election coverage, the death of Pope Francis, and Severe typhoon live coverage updates. In addition, we are now doing live news reporting via Live-U, Live-U Smart, Zoom, and flyaway satellite. This was made possible after the acquisition of a new encoder/decoder, Starlink, and the acquisition of a switcher machine from RTVM. We hired Video editors, cameramen, reporters, and writers to replace some of those who resigned and retired to boost our manpower.

We are able to enhance our visual news presentation after procuring several new pieces of equipment, such as cameras, MOJO kits, computers, and editing machines.

As part of improving the skills of our people, several workshop-seminar training sessions were conducted for our news and production personnel, such as Mobile Journalism, the proper way of doing live reports, and social grace.

We are making IBC's presence more visible on social media by doing round-the-clock posting on Facebook, Instagram, and X. Based on the latest Facebook analytics from January 1 to December 31, 2025, IBC's official Facebook page demonstrates exceptional reach and strong audience growth. During the selected period, the page generated 324.9 million total views, underscoring IBC's sustained visibility and relevance on the platform. Several content pieces performed strongly, with individual posts reaching hundreds of thousands to over a million views, indicating that IBC's mix of news, public service information, entertainment, sports, and special features continues to resonate with a wide audience. While overall content interactions registered at 5.3 million.

In terms of audience growth, IBC recorded a significant surge in followers, gaining 573,000 new followers, equivalent to a 310% increase during the period. This strong upward trend brings the page's total following to 1.150 million followers to date, reflecting growing public trust, interest, and long-term audience retention. The substantial increase in followers, alongside massive view counts, positions IBC Facebook as a high-impact digital platform for news distribution, public information, and government communication, with clear potential for deeper engagement strategies moving forward.

IBC-13's Programming

IBC-13 operations fully supported the government by allocating a substantial amount of airtime for government-centered programming. Out of the possible 522 hours per month, 67.33 percent, or a total of 376 hours, are reserved for Government broadcast use.

We continued to produce the program **Bagong Pilipinas PBBM Lingkod ng Bayan**, a 30-minute summary of the highlights of President Ferdinand Marcos' work week, elaborating on the Chief Executive's efforts towards the achievement of "Bagong Pilipinas". As of June 30, we already aired 44 original episodes.

Moreover, we also have an ongoing production of *Ang Senado Ng Pilipinas*, a one-hour news magazine program that focuses on the legislative work of the Senate of the Philippines, which gives the public a closer peek and a deeper understanding of the role of our lawmakers and how they work. We have already produced 13 original episodes.

We continued to produce and air *Cabinet@Work*, a 30-minute documentary aimed at introducing the different projects and programs of the cabinet agencies under the administration of President Ferdinand R. Marcos, Jr. We have already produced 30 episodes since we launched the program last year.

We are also producing 'Dok, True ba?', a 1 hour Talk show program that focuses on medical-related information that will help the viewing public in unveiling the truth to their common beliefs and providing answers and remedies to certain health concerns. We already aired 8 original episodes.

As part of improving the IBC program grid, the News and Production Department launched several new station-produced programs in the early part of 2025. These programs are also meant to reintroduce IBC to a different demographic, showing we are not limited to government news.

Cooltura is an infotainment program showcasing the country's travel destinations and cultural heritage, which highlights Philippine culture and tourism in the age of social media.

Combining elements of documentary and reality, the show aims to encourage viewers to discover, rediscover, appreciate, and embrace different aspects of culture (art, history, food, traditions, festivals) and tourism (destinations, landmarks) of a particular town, city, province, or region in the Philippines.

Legally Speaking is a one-hour public affairs program that aims to educate viewers about the Philippine justice system. How it works, the country's law, as well as the rights of Filipinos, and the government's legal programs that are available to the public.

The law can seem intimidating for the general public due to legal jargon; Legally Speaking will bridge the gap. Also, part of the program is to give free legal advice to our viewers via the segment Itanong mo kay Atty.

ResTOURant, this food and restaurant program is designed to engage and educate viewers by spotlighting diverse cultures, delicious foods, and innovative products that we can find and experience here in the Philippines.

RESTOURANT

Sayanista (SciTech Children’s Program), with the evolving technology, many children now spend their time in front of the screen. To ensure that children will have productive screen time, IBC is producing a fun and educational Science show.

SAYANISTA is a 30-minute mix of live-action animation program about Science and Technology. Combining animation and theater acting, the show will center on Agham the animated cat and real-life ‘Kuya Roe’ guiding us on different SciTech topics. The colorful animation, as well as the funny and energetic acting of our host, will make the kids enjoy the learning.

Kalye Sining is a 30-minute program. It is a child-friendly avenue that aims to teach kids how to be resourceful and creative in producing crafts while contributing to nature preservation.

This is also part of our compliance with the National Council for Children’s Television Child-Friendly Content Standards (NCCT-CFCS) that every television broadcast station is required to allot at least fifteen percent (15%) of its daily total airtime for child-friendly television programs

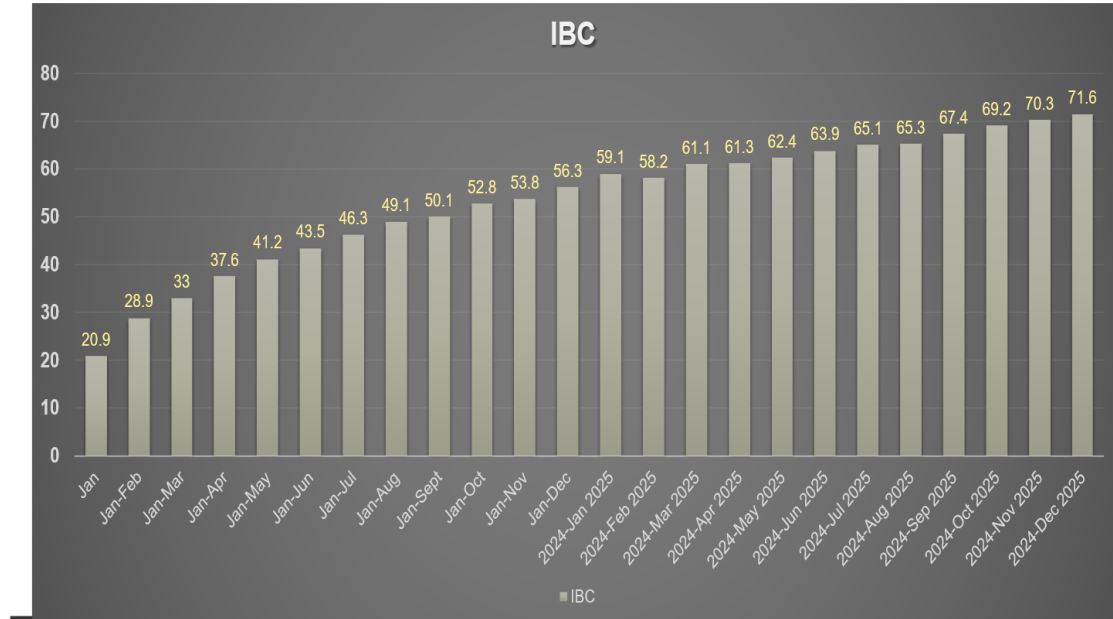

Chairman’s Report with Dante ‘Klink’ Ang is a weekly one-hour talk show that aims to help the government in presenting the programs of different government agencies by interviewing the heads of these agencies, as well as those from the private sector.

The production of these programs improved IBC-13's content and rating based on the Kantar survey.

Ongoing Projects

IBC Rebranding

IBC has been working on its rebranding, which will initially focus on its news programs.

**REBRAND IBC13 NEWS
AS TREZE-13**

The only free-to-air channel committed to hourly Tagalog news for Gen Z, Millennials and underserved rural audiences — delivered on VHF, mobile, digital streaming and radio (RADYO TREZE).

PROGRAM REBRANDING

1. **BALITANG TreZe (hourly 30–60s newsbreaks) guaranteed hourly placement across broadcast day (ideal for continuous reach and frequency)**
2. **TreZe SA TANGHALI-Congress TV(noontime news)15–30s spots, brand-led service segments**
3. **TreZe (1-hour Tagalog early evening newscast)30s/60s spots, sponsored segments, in-show integrations (product demos, public-service tie-ins), branded headlines**
4. **13NEWS (1-hour English late evening news) 30s spots, premium sponsorship for English-speaking viewers/diaspora**
5. **Radyo TreZe 1206 (DWAN 1206 rebrand)- news-talk public service radio- live radio-TV reports, show sponsorships, field-audio promo packages reaching urban and rural listeners**
6. **TreZe MORNINGS (news/variety program) integrated morning sponsorships in tandem with early evening newscast Treze , live-read partnerships, demo segments**
7. **NARRA TV- international broadcast sponsors, Philippine worldwide brands**

TreZe Mornings is a high-energy, informative, and uplifting morning news magazine program designed to cater to a broad Filipino audience while remaining highly appealing to the younger generation. Airing daily from 6:00 AM to 8:00 AM, the program captures the optimism and fresh start that every new day brings.

Anchored on credible journalism, dynamic discussions, and lifestyle-driven segments, Treze sa Umaga aims to be the audience’s trusted morning companion, delivering news, service, inspiration, and feel-good content that empowers viewers to begin their **day informed, motivated, and hopeful.**

13 News, a nightly 30-minute English news program. Delivers essential updates on business, trade, tourism, welfare of overseas Filipinos, global developments, and key government actions that shape the nation’s tomorrow. Fast-paced, concise, credible, and connected to both the local and global landscape. Anchored by William Thio and Angela Sy

NARRA TV will feature positive news about the country's culture, business, tourism, etc. Just like Al Jazeera, IBC will adapt to the rapidly evolving media landscape. With the rise of digital media consumption, the network is focusing on multimedia storytelling to reach younger audiences. IBC's commitment to providing balanced and accurate reporting, providing diverse narratives, will be invaluable in fostering a more informed global citizenry.

Several programs and initiatives are currently in the pipeline aimed at enhancing the program grid of IBC. Among them are the following:

Salamat PBBM - A partnership between PCO (Usec Gerald). A program showcasing the achievements of the PBBM admin.

NewsBizAsia - Business program hosted by Tony Lopez

The Good Stories - The program will focus on revisiting and reanimating the best Filipino character, beyond the current and the popular, and identifying simple, practical, accessible ways to utilize these values to effect change in our society.

PAK: Puhunang Abot Kaya - A 30-minute business magazine television program dedicated to showcasing inspiring stories of micro business owners and their journey to success. This is also our way of promoting SME.

Buhay Blogger - is an engaging 30-minute weekly talk show. This program focuses on emerging and empowering social media influencers with compelling stories.

OPO - A children's program focusing on re-introducing Filipino values to the new generation.

Barangay Trese - A public service program to be hosted by Boss Toyo. We will tackle issues in a lighter way that people will understand and will have a connection with it. *Barangay Trese* aims to inspire action and reinforce the importance of government support in empowering communities. As well as highlighting the barangay programs that have a positive impact on the people.

Lente - Ang bagong mukha ng dokyu

Department of Education Arrears of P74.4M for DepEd TV Airing

The Office of the Government Corporate Counsel (OGCC) filed on May 2, 2024, a Motion for Early Resolution of the Petition for Money Claim based on Quantum Meruit before the Commission on Audit. The case was filed by the OGCC on May 24, 2023, to collect the P74.4M arrears of the Department of Education. The expected timetable for settlement of the case and collection of the arrears is from 3 to 6 months from filing the claim.

Mandate of the Network
